

IT'S ABOUT HUNGER

5% of Haitian children <5-yrs. suffer acute undernutrition

33% of Haitian children <5-yrs. suffer chronic undernutrition

Undernutrition is irreversible if child under 2-years-old does not receive enough nutritious food

—United Nations World Food Programme

Look into the eyes of HUNGER:  is a hunger ministry.

EDUCATION is JOB #1: Offering cooking instruction using the free energy of the sun.

TRAINING includes new experiences like baking cupcakes!

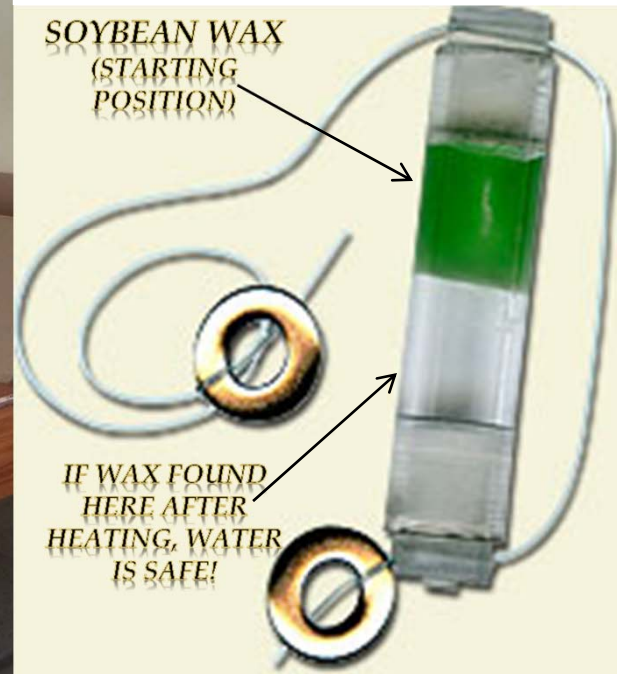

IT'S ABOUT LEARNING

Only 50% of Haiti has safe drinking water

—United Nations World Food Programme

WAPI: Water Pasteurization Indicator

LEARNING about saving lives through pasteurizing drinking water.

TEACHERS are Haitian—walking the walk—Raymonde & Montas Joseph.

IT'S ABOUT VOLUNTEERS

Volunteers package ovens at Solar Oven Shop in Dakotas

Volunteers build ovens serving alongside Haitian partners

YOUR service NEEDED for 2011 Haiti mission trips:

July 15-26, 2011

Nov 4-15, 2011

VOLUNTEERS In Mission demonstrate *Christian Love In Action!*

DISTRIBUTION of solar ovens to students who grasp the benefits... 100%+

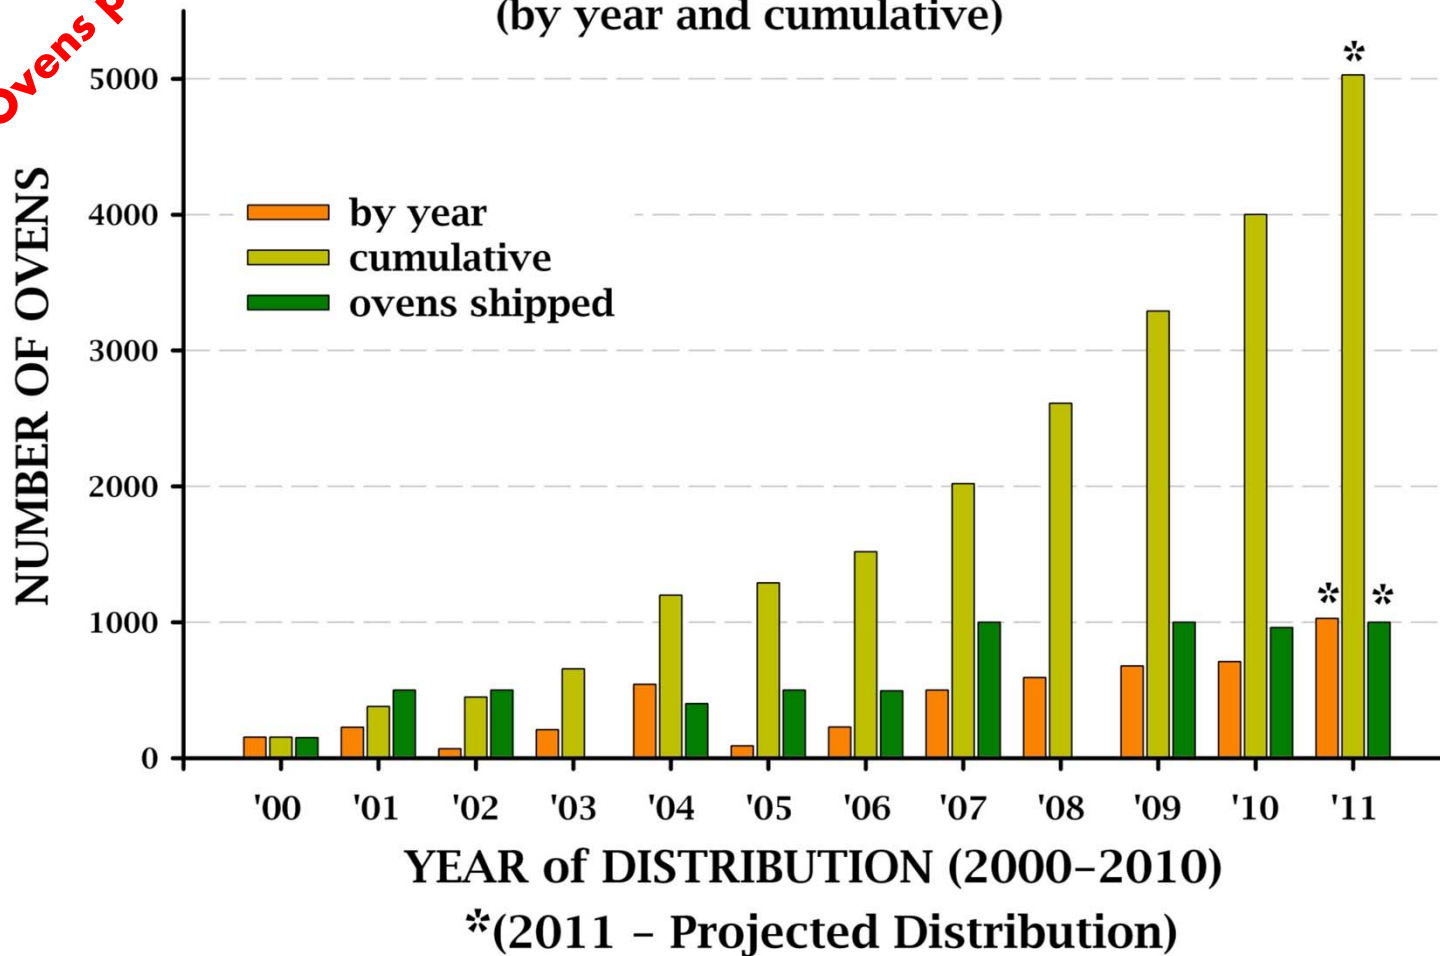

GRADUATION: there really are no words to express their satisfaction.

IT'S ABOUT POVERTY

- **76% of Haitians live on less than US\$2 per day**
- **60% of rural household income (~\$1.20) is spent on food in Haiti and many eat just once per day**
- **25% of income (~\$0.50) is spent on cooking fuel**
- **Do the math: end-of-day <30¢ remains for everything else!**

GOAL: 2000 Ovens per Year

SOLAR OVEN DISTRIBUTION (by year and cumulative)

Haitians can afford ~10% of the \$125 cost of a solar oven ... so our question is:

Will WE continue raising the bar to FIGHT HUNGER/POVERTY in Haiti?
